

## Temporary Cardiac Surgical Assist

Kingston Health Sciences Centre (KHSC) is looking for temporary cardiac surgical assists in the form of MD first assists. Experience required. Duties would include first assist for cardiac procedures, harvesting of conduits for coronary artery bypass (saphenous vein, radial artery). Skill and experience with endoscopic conduit harvesting will be a strong asset. Call responsibilities will include coverage for the operating room as well as limited ward patient coverage.

All individuals will be supported for costs associated with travel and accommodations. Remuneration for MD assists will be through personal billings, as well as a daily or weekly stipend.

The review of applications is on-going and will continue until the position is filled. Applications are to include a letter summarizing expertise, qualifications, and accomplishments relevant to the position, a CV, and the names and full contact information of three referees. Complete applications are to be directed to: Dr. Darrin Payne, Chair, Division of Cardiovascular Surgery, Kingston General Hospital. Email: [KGH.DepartmentOfSurgery@kingstonhsc.ca](mailto:KGH.DepartmentOfSurgery@kingstonhsc.ca).
