

Queen's speaker series

The evolving role of AI in ultrasound

The 11th annual Dr. Andrew and Margaret Bruce visiting scholar in surgical innovation

The Departments of Surgery and Urology welcome you to a free public lecture. Dr. Noble will explore how artificial intelligence (AI) is transforming medical ultrasound. Her talk will highlight new technologies that help clinicians interpret images and improve patient care.

The Queen's University speaker series is supported by the Dr. Andrew and Margaret Bruce endowment for visiting scholars in surgical innovation

Dr. Alison Noble

CBE FRS FREng FIET FWES CEng DPhil (Oxon) MA

Technikos Professor of Biomedical Engineering in the Department of Engineering Science and Professorial Fellow of St Hilda's College at the University of Oxford

Wednesday, April 15, 2026 at 4:30 pm
