

Queen's University School of Medicine presents  
The 4<sup>th</sup> Annual Dr. Andrew and Margaret Bruce  
Visiting Scholar in Surgical Innovation

The Queen's University  
Departments of Surgery and Urology  
invite you to a special presentation by

**Dr. Nick Morrell MB BS**  
University of Cambridge, UK

## Stepping Into The Unknown: The Era of Genomic Medicine and Stem Cells

You may have heard about stem cell research and the human genome, but what does it all actually mean? Why are surgeons, clinicians and researchers so excited?

Dr Morrell is this year's Bruce Visiting Scholar in Surgical Innovation. He is a highly renowned Professor of Cardiopulmonary Medicine at Cambridge University in the United Kingdom and Honorary Consultant at Addenbrooke's and Papworth Hospitals in Cambridge.

Through his own outstanding research in cardiovascular disease and hypertension as well as the work of other leaders in the field, he will illustrate the exciting ways in which medicine is advancing, through our greater understand of stem cell and genomic research developments - new treatment and preventive modalities and new diagnostic techniques.

This is a unique opportunity for you, to not only hear about the latest research, but also to question the experts and see how such work is related to your life and others in the community. This public-institute interaction is at the core of what we do at Queen's University, and the ability of our science to make a difference in your lives.

Come join us - the future is waiting.

**Tuesday, November 3<sup>rd</sup> 2015, 5:00 PM**

### The Dr. Andrew and Margaret Bruce Endowment for Visiting Scholars in Surgical Innovation

Established by Dr. Andrew and Margaret Bruce, the endowment will be used to support hosting of prominent scholars at Queen's University. It is the goal and objective of this endowment that the visiting scholar will bring special expertise in the area of surgical scholarship, will introduce new research and ideas, will teach new methodologies to Queen's medical scientists and clinicians and provide new concepts to the students.

School of Medicine Building  
15 Arch St.  
Queen's University  
ROOM 132A

All welcome - Free admission  
Refreshments at 4:30 PM.
