

Queen's University School of Medicine presents

**The 1st Dr. Andrew and Margaret Bruce
Visiting Scholar in Surgical Innovation**

The Queen's University
Departments of Surgery and Urology
invite you to a special presentation by

Dr. Hans Ringertz, MD, PhD

**What does it take to win a Nobel Prize!
MRI and More Recent Nobel Prizes in
Physiology or Medicine**

Dr. Ringertz was professor and chairman of the Department of Radiology at the Karolinska Institute in Stockholm. Dr. Ringertz has a long history with the Karolinska Institute where he obtained his medical degree and a doctorate in biophysics five years later. Early on, Dr. Ringertz held research positions at the Institute's Department of Physiology and Department of Medical Physics. In 1969, he began a residency in diagnostic radiology. Only nine years later, he became chair of the Department of Radiology at the Sachs' Pediatric Hospital in Stockholm. He returned to the Karolinska Institute in 1984.

Dr. Ringertz now serves as visiting professor in the Department of Radiology at the Lucile Packard Children's Hospital, Stanford University Hospital. He is a member of more than two dozen professional organizations and has acted as an invited lecturer or chairman at many scientific and professional meetings and workshops. He has received numerous awards, including honorary memberships in 14 radiological societies such as Honorary Fellow of the American College of Radiology (FACR); Honorary Fellow of the Royal College of Radiologists, London, England, (FRCR); and Honorary Fellow Faculty for Radiologists of the Royal College of Surgeons in Ireland (FFRCSI). In 2003, he was chair of the Nobel Assembly at the Karolinska Institute. Dr. Ringertz serves as editor or ad hoc referee on the editorial board of a dozen medical publications worldwide. He was president of the European Association of Radiology from 1997 to 1999 and was awarded the Gold Medal of the European Congress of Radiology and the European Association of Radiology.

Wednesday, October 24th, 2012, 5:00 PM

**The Dr. Andrew and Margaret Bruce Endowment
for Visiting Scholars in Surgical Innovation**

Established by Dr. Andrew and Margaret Bruce, the endowment will be used to support hosting of prominent scholars at Queen's University. It is the goal and objective of this endowment that the visiting scholar will bring special expertise in the area of surgical scholarship, will introduce new research and ideas, will teach new methodologies to Queen's medical scientists and clinicians and provide new concepts to the students.

School of Medicine Building
