Surgical Procedure

Resident (please print) _____ PGY _____
 Attending: _____
 Role: _____ Primary, _____ 1st Assist, _____ 2nd Assist
 Date of observation: _____
 Program: _____ General Surgery, _____ Orthopaedics, _____ Obstetrics and Gynecology, _____ Other (specify)
 Date rubric completed: _____
 Procedure: _____

This assessment focuses on fundamental principles common across all surgeries – it purposely avoids individual surgeon's preferences

	Needs Attention	Developing	Achieving (Independent community surgeon)
Pre-op probe <input type="checkbox"/> N/A*	<input type="checkbox"/> Missed relevant aspects of patient Hx and/or imaging. <input type="checkbox"/> Lacked knowledge of procedure (anatomy, indications, contraindication) <input type="checkbox"/> Proposed incorrect incision	<input type="checkbox"/> Discussed patient Hx and imaging thoroughly. <input type="checkbox"/> Expressed basic understanding of procedure (anatomy, indications, contraindication) <input type="checkbox"/> Proposed correct incision	<input type="checkbox"/> Linked knowledge about patient (Hx & imaging) with procedure <input type="checkbox"/> Conveyed a pre-operative plan that reflects unique aspects of the case.
Surgical reasoning	<input type="checkbox"/> Limited surgical plan and/or poor intra-op decision-making <input type="checkbox"/> Watched patient prep (positioning, checklist, prep, drape) <input type="checkbox"/> Lacked knowledge of tissue planes <input type="checkbox"/> Rough tissue handling <input type="checkbox"/> Ineffective management of bleeding	<input type="checkbox"/> Anticipated intra-op flow/direction/verbalizes sequence of activities <input type="checkbox"/> Participated in patient prep (positioning, checklist, prep, drape) <input type="checkbox"/> Identified tissue planes correctly <input type="checkbox"/> Tissue handling – minor issues <input type="checkbox"/> Controls bleeding when prompted	<input type="checkbox"/> Provided rationale for alternative incision <input type="checkbox"/> Modified surgical plan to meet intra-op findings & achieve surgical goal <input type="checkbox"/> Directed patient prep (positioning, checklist, prep, drape) <input type="checkbox"/> Navigated tissue planes with ease <input type="checkbox"/> Gentle tissue handling <input type="checkbox"/> Manages bleeding using a variety of techniques
Post-op plan <input type="checkbox"/> N/A*	<input type="checkbox"/> Required continuous directing <input type="checkbox"/> Major omissions	<input type="checkbox"/> Required occasional redirecting <input type="checkbox"/> Minor omissions	<input type="checkbox"/> Fine tuning surgical technique <input type="checkbox"/> Comprehensive
Communication	<input type="checkbox"/> Unclear, improper, unresponsive and/or ineffective	<input type="checkbox"/> Responsive but unclear at times	<input type="checkbox"/> Direct, clear and concise
Collaborator	<input type="checkbox"/> Ignores suggestions from team <input type="checkbox"/> Does not always treat co-workers with respect	<input type="checkbox"/> Receptive to feedback from team <input type="checkbox"/> Treats co-workers with respect	<input type="checkbox"/> Actively sought input from team <input type="checkbox"/> Fosters a positive working environment, encouraging mutual respect among co-workers
Scholar/Teaching <input type="checkbox"/> N/A*	<input type="checkbox"/> Missed opportunities to support others' learning	<input type="checkbox"/> Responded to less experienced learners' questions	<input type="checkbox"/> Guided less experienced learners to complete tasks
Comments:
